Office Action Summary	Application No. 10/528,374	Applicant(s) JORGENSEN, CARSTEN	
	Examiner Reginald L. Alexander	Art Unit 3742	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, at lines 11 and 12, the recitation of "optionally according to" is vague and indefinite. It is not clear what is being structurally defined or positively recited. In claims 9-11 there is no antecedent basis for the "setting points". In claim 14, it is unclear what is being described at lines 3-5.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-3, 8, 10, 12 and 14 are rejected under 35 U.S.C. 102(a) as being anticipated by Donnelly et al.

There is disclosed in Donnelly a brewing device, comprising: two containers sealingly arranged relative to and above one another; an adjustable riser pipe fluidly connecting the two containers; wherein the riser pipe includes a main pipe 8 and a sleeve 80 displaceable about the main pipe; and securing means 88, 90 for adjusting

the position about the main pipe at which the sleeve is mounted. The securing means including settings formed as a ruler (col. 7, lines 55-65).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 4, 5, 11 and 13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Donnelly et al. in view of MacDonald.

MacDonald discloses a helical groove about a cylindrical section and a sleeve having a projecting member which engages the groove to allow adjustable movement of the sleeve.

It would have been obvious to one skilled in the art to substitute the adjustable securing means of Donnelly with that taught in MacDonald, in order to provide an easier way to adjust the sleeve upon the main pipe.

Allowable Subject Matter

Claims 6, 7 and 9 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patent to Joergensen and EPO 0401456 are cited for their disclosure of the state of the art.
